Cost of Real Cigarettes vs. Cloud 9 E-Smokers Paradise

Cloud 9 E-Smokers Paradise rolls back the cost of smoking – equivalent to smoking a package of cigarettes for under \$1.00, or smoke for 3 months for \$20 by using the Cloud 9 Smoking Liquid Elixir.

How the Cloud 9 Cigarette Works:

The Cloud 9 Cigarette features 3 components:

- 1) The Battery – A rechargeable lithium battery which will give you approximately 100 puffs before needing a charge. On the tip of the battery is a in use indicator light that illuminates and looks like a cigarette tip glowing when you puff on it.
- 2) The Atomizer – A electronic device that couples a sensor that activates when a puff is taken. The atomizer then takes a little bit of the Smokers Liquid from the cartridge and vaporizes it within the atomizer.
- 3) The Cartridge – A plastic cartridge that holds the Smokers Liquid for delivery into the atomizer.

The Cloud 9 Super Cigarette

The Cloud 9 Super Cigarette produces full clouds of "smoke" as you would expect on a real cigarette. You will even feel that light "hit" when you get a good puff and inhale deeply.
